ABOUT

TG Architects is a division of the **TG Groups**. It is a Chennai based firm specializing in Architectural Design, Interior Design, Landscape Design, Project Management and Product Design Services. The firm is headed by **Ar. Thinaguru**, CEO-TG Groups. Ar. Thinaguru is a graduate in Architecture and holds a Master's Degree in Construction Management from Glasgow Caledonian University, UK.

The primary objective of the organization is to support customers from **initial planning to final implementation** of their projects. Remarkable **customer satisfaction** and **value for money** is what distinguishes the firm in the field. The **quality** of service and **timely completion** of projects is believed to contribute to the growth and prosperity of the clientele and the team.

A progressive, variegated and multifaceted design firm, TG Group's Architecture Service owes its swift rise in the design industry to the sustained efforts being made since its origin, to understand the implicit necessities of clients and other constrains only to **exceed client expectations**. This has enabled the firm get past the relentless competition in the industry and stand apart with our own values. The Team Comprises Architects, Engineers, Accountant and Marketing professionals. TG Architects have completed a number of projects from Architectural and Interior Design to Landscape Design. The team has specialized Architects, with **international exposure** in the field, involved in the design process. Design solutions offered are backed by research and analysis of various components that are integral part of the Design. The prime objective of our company being, extending support to clients from initial planning to Final implementation of the project, we assist you in **building your dream like it's ours**.

TG TEAM

Ar. Thinaguru is a **young visionary** with his passion mirrored by the multifaceted nature of the TG Groups and his determination to take the organization to the next level. He is the **project manager** and the **head of architecture** division of the TG Groups. He stands in the vanguard, actively **directing the development** of the team . He is an active member of various **professional organizations**. He has secured **National Student Award** in Competition for Best Innovative use of Steel in Architecture for World class Bus Terminus Design at College. Ar. Thinaguru believes that the collective synergy between the team, its leaders and the client is the keystone of any establishment's exponential growth and enduring success.

The **team's** faction of Architects, Designers, Engineers and Visualizers are resolved to **design excellence** in the contemporary built environment. The team stands for collaboration, both internally and among our broader team of clientele & consultants. The **research, processing and representations** are always tailored to the specific needs of each site and our client's programmatic requirements. Through the varied talents of the design professionals and their knowledge in construction and allied industries, the team readily guides its clientele in making informed decisions that benefit their bottom line while investing for the future.

Frequently Asked Questions

• WHY HIRE AN ARCHITECT?

An architect will work with you through the complicated but exciting process of designing and building your home. We provide inspiration, guidance, oversight, and an efficient plan for working through this process. Our goal is to help put your dreams on paper and then assist you through the building process to have your dream house built in an efficient, cost effective manner. We believe this should be a fun and inspiring process for all.

• WHAT IS THE DIFFERENCE BETWEEN AN ARCHITECT AND CIVIL ENGINEER?

Architects specialize in design. Civil engineers specialize in constructing architect's design. Architects essentially plan the process and engineers work on the execution part of it.

• HOW DO YOU DETERMINE YOUR FEES?

We follow Council of Architecture Norms. Council of Architecture (COA) is the legal body covering the practicing particulars of all licensed architects.

• DIFFERENCE BETWEEN AN INTERIOR DECORATOR AND AN INTERIOR DESIGNER?

An interior decorator generally refers to someone who deals with finishes, surfaces, furniture, and wall coverings. Also, an interior decorator may work in a variety of venues from a design showroom to a remodeling retail store. An interior designer is a more specialized career field, requiring a certain combined level of education, work experience, and licensing. An interior designer may create spaces for the inside of a commercial office building, design the lighting for a restaurant, or select the furnishings of a home. An interior designer may also deal with issues of safety like accessibility and building codes.

• DO YOU BUILD THE GARDENS YOU DESIGN?

We work on general landscape execution that we design, upon client's request. In some instances, we work with the contractors that have the skill set required to build our designs with expected quality.

• WHAT IS PRODUCT DESIGNING?

Product designing is a professional service of creating and developing concepts and specifications that optimize the function, value and appearance of products and systems for the mutual benefit of both user and manufacturer.

• WHO NEEDS PROJECT MANAGEMENT SERVICE?

You certainly require a Project management service for you dream project, If you feel your limited knowledge of the field has left you unable to judge whether your contractors are charging exorbitant price, if you are not able to judge the quality in construction even after spending time at site everyday, if you cannot manage the time-frame of the project and there are delays over and over again, if estimation and budgeting seems to get out of your control and you have no idea of what is causing the price escalation, if you feel that you are not aware of the progress on site and other financial matters.
